sms business solutions

sms Solutions

Using sms solutions in your Business

2ergo is a world leading provider of sms solutions - an early practitioner of sms that brings a wealth of industry knowledge and many years of experience. Providing interactive and multi channel sms solutions, using mobile and fixed-line telecommunications, sms and internet technologies. Highly focused in our approach to sms, we take pride in the fact that we help our clients to advance their use of sms, to drive business improvements, by increasing revenues, optimising sms business processes and extending their marketing reach.

With online sms access and configurable API connections we can get your Web based sms services up and running quickly. Providing you with the means to easily manage yoursms communications; to drive revenue generating services; optimise your business processes; or manage your marketing campaigns.

Through our Managed Services we supply the sms technical skills, and the sms infrastructure, to minimise your investments, and shortcut the time required to launch your new sms services.

We can build the user friendly sms applications to meet your specific sms needs, enabling you to manage your sms services online, to administer your sms system, or report on communications. Powered by the Multiserve Platform, we will supply you with the high performance, and highly resilient sms communications infrastructure to keep your business running smoothly.

We help our clients to exploit the sms choices of today, whilst ensuring that their sms business solutions will evolve with advances in sms technology. Making sure that our clients will always be the first to exploit and benefit from new sms opportunities, as they arise.
